TEC

XX²

TEC

XXX-TEC^{2+PRO} IS SUNOVAS RACE CONSTRUCTION
AVAILABLE IN *FAST²* SHAPES

^{2+PRO}
XXX-TEC (Triple X square and pro - Tec) is the natural next step to XXX-TEC.
The ultimate goal in SUP-RACING being: **THE LIGHTEST** and **THE STRONGEST**
We developed a version of this technology that does not compromise until
those goals are achieved. The result is a ridiculously extensive custom
manufacturing process, but fully worth it:

Full Balsa Sandwich	Full Balsa Rail Wrap (double vacuum)
extra strong deck density	shock absorbing bottom density
inFINity high density fin system	UV-resistant automotive clear lack
mosaic-multi-density EPS-Core	
every board is hand-made in Thailand to order in our own factory

^{2+PRO}
XXX-TEC IS SUNOVAS RACE CONSTRUCTION
AVAILABLE IN FAST² SHAPES

FLATWATER FAAST^{PRO}

TEAM BOARDS

| FASTEST | LIGHTEST |
| STRONGEST | COOLEST |

LENGTH	WIDTH	THICK	VOL
--------	-------	-------	-----

14'0	21"	3.8 8.8"	226L
------	-----	------------	------

14'0	22"	3.8 8.8"	247L
------	-----	------------	------

14'0	23.5"	3.8 8.8"	264L
------	-------	------------	------

14'0	25"	3.8 8.8"	281L
------	-----	------------	------

THE ~~FLATWATER~~ ^{PRO}FAAST is the ultimate proof of what technology can do. Possibly the lightest, definitely one of the strongest constructions available in the water. Double vacuum, full wrapped balsa sandwich, and an amazingly fast shape, that's as stable as can be. Not fast, FAAST!

DESIGNED BY *Marcus Tardrew*

ECO

TEC

ECO-TEC IS SUNOVAS ECONOMIC CONSTRUCTION
AVAILABLE IN 3 KEY SHAPES

ECO

*ECO-TEC is all about the most economic way to create a product.
While still meeting our SUNOVA quality standard of durability, weight and performance.*

*So we use our tested FUSION technology which is a Paulownia Sandwich system and
offer only a 3models/sizes. Thus eliminating a key unknown cost factor:
STOCK of un-used SKUs.*

*| Full Paulownia Sandwich | extra inforced rails | inFINity high density fin system |
| shock absorbing bottom density | UV - resistant automotive finish clear lack |*

every board is hand-made in Thailand to order in The Board Factory Co., Ltd.

**ECO-TEC IS SUNOVAS ECONOMIC CONSTRUCTION
AVAILABLE IN 3 KEY SHAPES**

FLATWATER FAAST^{ECO}

RACE BOARDS

| FAST | LIGHT |

| AFFORDABLE |

SUNOVAS
SINCE 1976

LENGTH	WIDTH	THICK	VOL
12'6"	28"	4.5 7"	239L
14'0"	29"	4.5 7"	277L

THE **FLATWATER FAAST^{ECO}** is the perfect technology to start racing or touring.

Possibly one of the most beautiful finish, with a great weight and our proven Flatwater shape. The Eco-Tec makes these boards affordable for everyone.

It's super stable, super nice, and a great start into racing. Not fast, FAAST!
